

LED UVC Disinfection

Model: AS-UV-CM14

Features:

- The bactericidal rate reached 99.9%;
- Micro instant sterilization, high efficiency and energy saving;
- Small and delicate, easy to carry out;
- UV UVC with high precision and special wavelength is used to sterilize and disinfect the surface of articles;
- System support: All versions of IOS system, Android phones need to support OTG function

Specifications

Product Model	AS-UV-CM14
Product Function	Sterilization disinfection
Power	0.45W
Wavelength	260-280nm
LED	1 UVC led, 2 ordinary LEDs
Input voltage	Phone: DC3 7V, type-C: DC5V
Output voltage	Phone: DC6V, type-C: DC6V
Life time	10000h
Size	30 * 14 * 7mm;
Weight	3g
